REMARKS

Claims 1-5, 7-12 and 20-29 are pending.

The Examiner has indicated that claims 3-14 and 17-19 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicants have done exactly this with respect to claim 6 (now claim 11) and claim 12.

Applicants have added claims 20-29, all ultimately dependent on claim 12, containing the limitations of original claims 2-11, respectively. Accordingly, no new search should be necessary upon entry of the present amendment.
